

# PCMH™ REQUIREMENTS ARE CHANGING IN 2022

Let RMS Healthcare partner with you on your PCMH journey. With more than 10 years of proven strategic consulting experience, we understand the core competencies required and work with you to ensure achieving compliance with NCQA standards. Our understanding of the uniqueness of each practice allows us to be more than a consultant, but to become a key member of your team. It is our goal to be your advocate in your overall PCMH journey.

## WHAT THESE CHANGES MEAN FOR YOU

- Introduction of standardized QI measures
- Enhancement of team-based quality improvement
- Continued alignment with CMS, HEDIS, and VBR measures
- Enhancement of patient communication and continuity of care
- Detailed management of high risk populations while addressing SDoH
- Enhancement to Q-PASS to demonstrate alignment with quality improvement initiatives
- Continued focus on test tracking and referral management
- Implementation of clinical decision support following evidence

### HOW WE PARTNER WITH YOU

- Your RMS Healthcare team works with your practice to create and sustain a collaborative and high functioning team
- We work with you to optimize performance and efficiencies by developing, implementing, and evaluating workflows and policies
- We help you maximize the use of digital reporting capabilities through use of your EMR platform, HIE, and dashboards
- We develop targeted and actionable quality improvement activities that are meaningful to your team
- We understand the current landscape of healthcare delivery, health inequities and SDoH, as well as the challenges that our providers are facing after COVID-19

### WHAT OUR CLIENTS SAY

“RMS made us feel reassured...were readily available, organized, timely, reliable, approachable, efficient, supportive, and accessible.” —**CNY Family Care**

“RMS has been a phenomenal partner to AHP and has shepherded many a practice across the PCMH finish line.” —**Accountable Health Partners**

“RMS is an excellent, client-focused firm whose staff are very responsive, knowledgeable, flexible, and experienced in guiding clients through the PCMH requirements and process.” —**Open Door Family Medical Center**
