

PCMH™ IS CHANGING IN 2024

RMS Healthcare has extensive and proven experience in assisting physician practices and health systems to attain and maintain PCMH Recognition, recognizing the importance of aligning with state specific PCMH requirements.

NOTABLE CHANGES

- Assess diversity and health literacy
- Enhance communication with patients
- Increased rigor with care management
- Alignment with electronic clinical quality measures (eCQM's)
- Mandatory reporting for labs and diagnostic imaging

HOW WE PARTNER WITH YOU

- We work with you to understand and breakdown PCMH Concepts, Competencies, and Criteria into manageable and actionable steps
- We guide you in aligning your PCMH Standardized Quality Improvement initiatives with your VBR agreements, MIPS reporting, as well as other payor requirements
- We identify areas of opportunity and help you implement meaningful and sustainable Quality Improvement initiatives, using the PDSA cycle of improvement
- We help you understand and implement strategies based on factors that drive overall health status of the individual patients and your patient population
- We work with you to optimize performance and operational efficiencies by developing, implementing, and evaluating workflows and policies
- We have extensive experience in aligning your PCMH requirements with other regulatory demands
