

Federally Qualified Health Center (FQHC) Consulting

Understanding the operational demands of the FQHC requirements, we guide clients to success, applying strategic planning and project management expertise to help you succeed.

NAVIGATE THE OPERATIONAL TIMELINE

- Position the organization in pursuit of excellence
- Identify key operational drivers
- Operationalize and maintain the FQHC model of patient care

ASSESS ORGANIZATIONAL PRIORITIES

- Evaluate operational policies
- Identify gaps and implement actionable solutions
- Position the organization to adopt systemic changes that improve health outcomes
- Cultivate a unified commitment to achieve high quality, culturally competent, comprehensive care delivery

QUALITY ASSURANCE/IMPROVEMENT

- Assess the organization's current Quality Management Plan
- Evaluate Quality Assurance/Performance Improvement (QAPI) priorities and implement actionable solutions
- Position the organization to utilize data and measurable outcomes to determine progress toward relevant evidence-based benchmarks

OPERATIONAL SITE VISIT READINESS

- Facilitate a Mock Site Visit to identify gaps
- Institute immediate actions to prepare for the Operational Site Visit

SUSTAINABILITY

- Execute improvement plan as an outcome of the Operational Site Visit
- Maintain annual review of policies
- Operationalize policies & evaluate compliance
- Seize upon opportunities to enhance current community-based partnerships
